

2021 - Covid-19 safety measurements on board PEARL SEAWAYS

- First of all, it is worth noting that our delegates will represent only about 25% of the capacity PEARL SEAWAYS was built for, so there is an abundance of space to respect distancing.
- Disinfection dispensers are placed all over the ship and mouth masks will be available.
- The air on board is fresh air, the air not being recycled.
- The ship follows strict protocols and is being frequently disinfected and cleaned.
- We will continue following the official guidelines, restrictions and recommendations and will roll out any required activity to secure a safe conference. This is our number one priority.
